Restriction is one of the following inventions is required under 35 USC 129:

Group I, claims 1-8 and 17-30 is drawn to a composition and method of treating amyloidosis using the claimed compounds classified in class 514, subclass 451 and 456.

Group II, claims 9-16 is drawn to a composition and method of treating an alpha-synuclein fibril formation using the claimed compounds, classified in class 514, subclass 451 and 456.

The above delineated inventions ^{are} ~~is~~ independent and patentably distinct each from the other. Each of the above groups is drawn to a totally different subject matter. One practicing the invention of one of the above groups would not necessarily be required to practice the invention of the other group. The search for the above groups would not co-extensive particularly as to the literature search required. Thus, for the above reasons the restriction for the examination purpose is proper.

Note: Applicant is required to select one of the compounds of any formula a, formula B, formula C or formula D with the election of one of the above groups. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim
